

## Krystonia Collector's Club *Halloween/Thanksgiving* Special

This is the time of year where we go from being scared to death to expressing our thanks. No, I'm not talking about politics but Halloween and Thanksgiving.

In Krystonia we have plenty of scary characters. Remember The Bahl, I think she could stand toe to toe against any witch. How about the Hagga-Beast? Can you even imagine having this huge animal swooping down on you from out of the skies? One swipe of those claws and you become instant coleslaw. In Krak N'Borg there are so many scary characters that I can't even name them, or choose to.

On the thankful side there is an abundance of wonderful things. Too often we take these for granted. Whimsical dragons, singing Hydro-Glyphs, and light hearted wizards are around every corner.

Let's celebrate the holidays with a collector's club special. We will call them **Scare Your Pants Off** and **Giving Thanks**. Which one goes with which holiday? Duh!

The **Scare Your Pants Off** Special might just do that. It allows you to add to your collection one very fierce dog, **Dowser**, plus the devious **Griffin** for the price of only \$45.00.

**Giving Thanks** includes the figurines **Mercy Me** and **See Me** expressing the simple love that brings us pleasure. You can add this combo to your collection also for only \$45.00.

All four figurines are **hand numbered and autographed creating a matched set**. The figurines are decorated **with gold highlights** to give them a look all their own.
